

XI International Conference

„Electromagnetic Devices and Processes in Environment Protection ELMECO-11” & „XIII Seminar of Applications of Superconductors AoS-13”

12-15 September, 2024

Hotel Victoria, 58/60 Gabriela Narutowicza St., 20-016 Lublin, Poland

First announcement

Organizers:

ASSOCIATION OF
POLISH ELECTRICIANS
Lublin Branch

WYDZIAŁ ELEKTROTECHNIKI
I INFORMATYKI
KATEDRA ELEKTROTECHNIKI
I TECHNOLOGII NADPRZEWODNIKOWYCH

Important dates:

- Abstract submission: April 28, 2024
- Abstract acceptance: May 13, 2024
- Full paper submission: July 28, 2024
- Conference program: August 11, 2024

Conference topics include, but are not limited to:

- ✓ plasma and ozone technologies for treatment of air, water, soil, crop and pest control, syngas and biofuel production;
- ✓ energy saving superconducting devices and their applications;
- ✓ electromagnetic technologies in agriculture and food industry;
- ✓ all aspects of electromagnetic compatibility;
- ✓ renewable energy generation and storage, green energy;
- ✓ designing of electromagnetic devices and processes;
- ✓ novel micro- and macro materials, electromagnetic materials and properties, dielectrics, ferroelectrics, and their applicability in environment protection and energy technologies;
- ✓ biomedical, mechatronic, robotic and space technologies for energy sector;
- ✓ advanced nanotechnologies and nanomaterials relied on the electromagnetic phenomena and their properties, energy-effective nanostructures, nanofluids for heat and energy applications, functional materials.

Registration fee:

Registration mode	Participant	Physical	Virtual
Early Bird (31.05.2024)	Students	€ 300/ 120*	€ 100
	Non-students	€ 400	€ 100
Regular (31.07.2024)	Students	€ 320/ 140*	€ 100
	Non-students	€ 450	€ 120
Accompanied person		€ 220	

Members of PTETiS and SEP have a 5% discount,
* in case of participation only in sessions for students.

Publications:

energies
an Open Access Journal by MDPI

Archives of Electrical Engineering
The journal of Polish Academy of Sciences
